

CLAIMS

The invention claimed is:

1. A gift comprising:

an enclosure having a base and at least one side, said at least one side having at least a first opening;

at least one card holding assembly disposed on said at least one side, said card holding assembly sized and shaped to support at least one card; and

at least one receptacle sized and shaped to fit within said at least one opening in said enclosure, said receptacle defining a cavity having a second opening disposed at one end, said cavity and said second opening adapted to receive at least a portion of an object.

2. The gift as claimed in claim 1 wherein said enclosure is generally rectangular in shape.

3. The gift as claimed in claim 2 wherein said first opening is disposed on an upper surface of said enclosure and said card holding assembly is disposed on a side perpendicular to said upper surface

4. The gift as claimed in claim 1 wherein said enclosure generally spherical in shape.

5. The gift as claimed in claim 1 wherein said enclosure includes generally triangular in shape.

6. The gift as claimed in claim 1 wherein said enclosure includes generally trapezoidal in shape.

7. The gift as claimed in claim 1 wherein said enclosure includes a plurality of said first openings and a plurality of said card holding assemblies.

8. The gift as claimed in claim 1 wherein said enclosure further includes indicia indicative of a theme corresponding to a theme of said card.

9. The gift as claimed in claim 1 wherein said card holding assembly further includes a viewing window.

10. The gift as claimed in claim 9 wherein said enclosure further includes indicia indicative of a theme corresponding to a theme of said card, wherein at least a portion of said indicia on said card is visible through said viewing window.

11. The gift as claimed in claim 1 wherein said card holding assembly is expandable.

12. The gift as claimed in claim 1 wherein said receptacle includes a vial.

13. The gift as claimed in claim 12 wherein said vial is adapted to contain a quantity of liquid.

14. The gift as claimed in claim 1 wherein said enclosure is translucent.

15. The gift as claimed in claim 14 wherein said enclosure has a tint.

16. A combination gift, card, and support comprising:

a support body having a base and at least one side;

a first opening disposed on said at least one side;

a vial defining a cavity having a second opening disposed at one end adapted to receive at least a portion of an object, said second opening having a lip wherein said vial is sized and shaped to fit within said first opening in said body such that said lip supports said vial on said side of said enclosure; and

a card adapted to contain a message; and

a card holding assembly disposed on said side of said enclosure, said card holding assembly sized and shaped to support said card.

17. The gift as claimed in claim 16 wherein said body includes a plurality of said first openings.

18. The gift as claimed in claim 17 wherein said body includes a plurality of vials.

19. The gift as claimed in claim 16 wherein said card holding assembly is expandable.

20. A combination gift, card, and support comprising:

a translucent support body having a base, at least one side, and a first opening disposed on said at least one side;

a vial defining a cavity having a second opening disposed at one end adapted to receive at least one stem of a flower, said second opening having a lip wherein said vial is sized and shaped to fit within said first opening in said body such that said lip supports said vial on said side of said enclosure; and

a card adapted to contain a message; and

an expandable pocket disposed on said side of said enclosure, said card holding assembly sized and shaped to support said card.
